HOGUE'S Esso Service Touchdown! Tommy Polk Scores No. 3 Against Arkadelphia; Egypt to Permit Fowler Rips Off 38-Yard Run - and a Doggone Dog Looks on Continued From Page One

Mrs. Lonnie Rae Norman and baby

nent is campaignnig for eveyone

- Game photos by Hope Star; dog photo by Margie Harrie, TOP — Camera, on north goal-line, shows Quarterback Tommy breaking into end zone for Hope's third touchdown as the Bobcats defeated Arkadelphia's Badgers 51-12 on the local field last Friday

night. At left is Immie Hollis (39), Hope left end; and directly beyond the near official's upthrust arm is Bobby Yarberry (41), Hope left tackle. At extreme right are Jimmy Porterfield (38), Bob-MIDDLE — One of the highlights of the first half was this 38-yard run by Charles Fowler (26), Hope reserve halfback, shown eluding an Arkadelphia tack! er. Fowler set sail on the Hope 40 and carried to the Badger 22 before being downed. On the following play Polk passed to Hollis for the game's first touchdown. Fowler showed this particular run wasn't a matter of luck when a few minutes later he galloped 55 yards for Hope's second touch-

BOTTOM — If you're a regular patron of the reserved seat section in the home stands you've seen this character, for he attends all the games, occupying whatever reserved seat happens to be vacant. There he sits, watching all the plays with a critical eye it must be a critical eye, for the slowest dog could give the fastest boy lessons in broken-field-running. This dog's name is Curley. He lives with Mr. and Mrs. Dayton Thomason, 1820 S. Main St. Of course that is in the stadium neighborhood, and the uproar eyery. Friday night aroused Curley's curlosity; he started going to the football games — and now he just can't quit.

58TH YEAR: VOL. 58 — NO. 26 HÖPÉ, ARKANSAS, TUESDAY, NOVEMBER, 13, 1956

Another Increase in Natural Gas Charges

Editorial in Texarkana Gazette The Arkansas Louisiana Gas Company and also, we inderstand, the natural gas company of Fort Smith Arkansas, are now reported to be working on commercial and smaller industrial institutions over the state urging them to sign what they call their 3X contracts which will put them on the preferred list of customers giving them a preference for natural gas service in case of shortage over non-signers. Signers of the contract also agree to pay 5c per thousand cubic feet feet more for natural gas effective

next January 1st. Of course, if nearly all of the commercial institutions and small industries sign these contracts, they will all be right back where they were, all on a preferred basis, except that they will all be paying the additional 5c for

Attorneys to whom we have talked are of the opinion that this is an illegal contract as there is no consideration involved except being placed on the preferred list and that it is clearly discriminatory against non-signers. We have contacted a number of persons to whom this arrangement has been, or will be, submitted and practically all express themselves as considering it very unfair and unreasonable but many are signing the contract under protest fearing that their natural gas supply might be cut off.

However, opposition to the proposal is being organized in several cities and some business interests at ort Smith have already filed a protest with the Public It seems to us that this proposition should be op-

posed by every business enterprise, every City Council and every Chamber of Commerce in the state. As we see it, it can only be considered as another attempt upon the part of the gas company to secure probably a million or two dollars additional annual revenue from the same service which the gas company under present and former control have been rendering for years and they are already under recent orders of the Public Service Commission probably receiving more than seven million dollars additional revenue a year above a proper and reasonable return upon their investments. Just how much of this sort of thing are the people of Arkansas going to stand for?

58TH YEAR: VOL. 58 — NO. 26 HÖPÉ, ARKANSAS, TUESDAY, NOVEMBER, 13, 1956

Another Increase in Natural Gas Charges

Editorial in Texarkana Gazette The Arkansas Louisiana Gas Company and also, we inderstand, the natural gas company of Fort Smith Arkansas, are now reported to be working on commercial and smaller industrial institutions over the state urging them to sign what they call their 3X contracts which will put them on the preferred list of customers giving them a preference for natural gas service in case of shortage over non-signers. Signers of the contract also agree to pay 5c per thousand cubic feet feet more for natural gas effective

next January 1st. Of course, if nearly all of the commercial institutions and small industries sign these contracts, they will all be right back where they were, all on a preferred basis, except that they will all be paying the additional 5c for

Attorneys to whom we have talked are of the opinion that this is an illegal contract as there is no consideration involved except being placed on the preferred list and that it is clearly discriminatory against non-signers. We have contacted a number of persons to whom this arrangement has been, or will be, submitted and practically all express themselves as considering it very unfair and unreasonable but many are signing the contract under protest fearing that their natural gas supply might be cut off.

However, opposition to the proposal is being organized in several cities and some business interests at ort Smith have already filed a protest with the Public It seems to us that this proposition should be op-

posed by every business enterprise, every City Council and every Chamber of Commerce in the state. As we see it, it can only be considered as another attempt upon the part of the gas company to secure probably a million or two dollars additional annual revenue from the same service which the gas company under present and former control have been rendering for years and they are already under recent orders of the Public Service Commission probably receiving more than seven million dollars additional revenue a year above a proper and reasonable return upon their investments. Just how much of this sort of thing are the people of Arkansas going to stand for?

58TH YEAR: VOL. 58 — NO. 26 HÖPÉ, ARKANSAS, TUESDAY, NOVEMBER, 13, 1956

Another Increase in Natural Gas Charges

Editorial in Texarkana Gazette The Arkansas Louisiana Gas Company and also, we inderstand, the natural gas company of Fort Smith Arkansas, are now reported to be working on commercial and smaller industrial institutions over the state urging them to sign what they call their 3X contracts which will put them on the preferred list of customers giving them a preference for natural gas service in case of shortage over non-signers. Signers of the contract also agree to pay 5c per thousand cubic feet feet more for natural gas effective

next January 1st. Of course, if nearly all of the commercial institutions and small industries sign these contracts, they will all be right back where they were, all on a preferred basis, except that they will all be paying the additional 5c for

Attorneys to whom we have talked are of the opinion that this is an illegal contract as there is no consideration involved except being placed on the preferred list and that it is clearly discriminatory against non-signers. We have contacted a number of persons to whom this arrangement has been, or will be, submitted and practically all express themselves as considering it very unfair and unreasonable but many are signing the contract under protest fearing that their natural gas supply might be cut off.

However, opposition to the proposal is being organized in several cities and some business interests at ort Smith have already filed a protest with the Public It seems to us that this proposition should be op-

posed by every business enterprise, every City Council and every Chamber of Commerce in the state. As we see it, it can only be considered as another attempt upon the part of the gas company to secure probably a million or two dollars additional annual revenue from the same service which the gas company under present and former control have been rendering for years and they are already under recent orders of the Public Service Commission probably receiving more than seven million dollars additional revenue a year above a proper and reasonable return upon their investments. Just how much of this sort of thing are the people of Arkansas going to stand for?

58TH YEAR: VOL. 58 — NO. 26 HÖPÉ, ARKANSAS, TUESDAY, NOVEMBER, 13, 1956

Another Increase in Natural Gas Charges

Editorial in Texarkana Gazette The Arkansas Louisiana Gas Company and also, we inderstand, the natural gas company of Fort Smith Arkansas, are now reported to be working on commercial and smaller industrial institutions over the state urging them to sign what they call their 3X contracts which will put them on the preferred list of customers giving them a preference for natural gas service in case of shortage over non-signers. Signers of the contract also agree to pay 5c per thousand cubic feet feet more for natural gas effective

next January 1st. Of course, if nearly all of the commercial institutions and small industries sign these contracts, they will all be right back where they were, all on a preferred basis, except that they will all be paying the additional 5c for

Attorneys to whom we have talked are of the opinion that this is an illegal contract as there is no consideration involved except being placed on the preferred list and that it is clearly discriminatory against non-signers. We have contacted a number of persons to whom this arrangement has been, or will be, submitted and practically all express themselves as considering it very unfair and unreasonable but many are signing the contract under protest fearing that their natural gas supply might be cut off.

However, opposition to the proposal is being organized in several cities and some business interests at ort Smith have already filed a protest with the Public It seems to us that this proposition should be op-

posed by every business enterprise, every City Council and every Chamber of Commerce in the state. As we see it, it can only be considered as another attempt upon the part of the gas company to secure probably a million or two dollars additional annual revenue from the same service which the gas company under present and former control have been rendering for years and they are already under recent orders of the Public Service Commission probably receiving more than seven million dollars additional revenue a year above a proper and reasonable return upon their investments. Just how much of this sort of thing are the people of Arkansas going to stand for?

HOGUE'S Esso Service Touchdown! Tommy Polk Scores No. 3 Against Arkadelphia; Egypt to Permit Fowler Rips Off 38-Yard Run - and a Doggone Dog Looks on Continued From Page One

Mrs. Lonnie Rae Norman and baby

nent is campaignnig for eveyone

- Game photos by Hope Star; dog photo by Margie Harrie, TOP — Camera, on north goal-line, shows Quarterback Tommy breaking into end zone for Hope's third touchdown as the Bobcats defeated Arkadelphia's Badgers 51-12 on the local field last Friday

night. At left is Immie Hollis (39), Hope left end; and directly beyond the near official's upthrust arm is Bobby Yarberry (41), Hope left tackle. At extreme right are Jimmy Porterfield (38), Bob-MIDDLE — One of the highlights of the first half was this 38-yard run by Charles Fowler (26), Hope reserve halfback, shown eluding an Arkadelphia tack! er. Fowler set sail on the Hope 40 and carried to the Badger 22 before being downed. On the following play Polk passed to Hollis for the game's first touchdown. Fowler showed this particular run wasn't a matter of luck when a few minutes later he galloped 55 yards for Hope's second touch-

BOTTOM — If you're a regular patron of the reserved seat section in the home stands you've seen this character, for he attends all the games, occupying whatever reserved seat happens to be vacant. There he sits, watching all the plays with a critical eye it must be a critical eye, for the slowest dog could give the fastest boy lessons in broken-field-running. This dog's name is Curley. He lives with Mr. and Mrs. Dayton Thomason, 1820 S. Main St. Of course that is in the stadium neighborhood, and the uproar eyery. Friday night aroused Curley's curlosity; he started going to the football games — and now he just can't quit.

58TH YEAR: VOL. 58 — NO. 26 HÖPE, ARKANSAS, TUESDAY, NOVEMBER, 13, 1956

Another Increase in Natural Gas Charges

Editorial in Texarkana Gazette The Arkansas Louisiana Gas Company and also, we inderstand, the natural gas company of Fort Smith Arkansas, are now reported to be working on commercial and smaller industrial institutions over the state urging them to sign what they call their 3X contracts which will put them on the preferred list of customers giving them a preference for natural gas service in case of shortage over non-signers. Signers of the contract also agree to pay 5c per thousand cubic feet feet more for natural gas effective

next January 1st. Of course, if nearly all of the commercial institutions and small industries sign these contracts, they will all be right back where they were, all on a preferred basis, except that they will all be paying the additional 5c for

Attorneys to whom we have talked are of the opinion that this is an illegal contract as there is no consideration involved except being placed on the preferred list and that it is clearly discriminatory against non-signers. We have contacted a number of persons to whom this arrangement has been, or will be, submitted and practically all express themselves as considering it very unfair and unreasonable but many are signing the contract under protest fearing that their natural gas supply might be cut off.

However, opposition to the proposal is being organized in several cities and some business interests at ort Smith have already filed a protest with the Public It seems to us that this proposition should be op-

posed by every business enterprise, every City Council and every Chamber of Commerce in the state. As we see it, it can only be considered as another attempt upon the part of the gas company to secure probably a million or two dollars additional annual revenue from the same service which the gas company under present and former control have been rendering for years and they are already under recent orders of the Public Service Commission probably receiving more than seven million dollars additional revenue a year above a proper and reasonable return upon their investments. Just how much of this sort of thing are the people of Arkansas going to stand for?

or pancakes.

It unleashes a hurricane of power It breaks through the vibration parrier It is swept-wing mastery of motion

Your eyes immediately tell you that this new Swept-Wing Dodge is a thing of real beauty! Daring in concept, low in silhouette, sleek and rakish of line! And every promise of exhilarating performance you sense in its low-slung, racy lines is brilliantly ulfilled on the road. This Swept-Wing Bodge is a

• It unleashes a hurricane of power from a mighty new aircraft-type Y-8 engine, tamed by new. TorqueFlite Push-Button Drive.

• It breaks through the vibration barrier with a new rubber-mounted suspension system-Dodge Torsion-Aire-that features race car

• It is swept-wing mastery of motion in a sweetheart of a car only 41/2 feet high that has no equal in the way it corners, handles, and rides. The wonderful world of Autodynamics is waiting for you at your nearby Dodge dealer's. See and drive the Swept-Wing Dodge today!

Tennessee and Oklahoma Game down to the wire in a photo finish in this week's Associated Press football poll but the final closeup showed Tenessee the No. 1 team by two points.

Tennessee's strong trunker-up support overcame Oklahoma's wide edge in first-place yotes.

The final count: Tonessee, 1,448; Oklahoma, 1,444.
Sports writers and sportscasters voting on the usual basis of 10 points for a first-place vote, 9 for econd, etc., gave Oklahoma 92 irsts to 58 for Tennessee. But ennessee led 75-34 in second place ballots.
Tenessee was a 6-0 winer over

Texas Eastern aids the ancient art of the silversmith

including flat ware and hollow ware, is manu-

factured by The Gorham Company.

Natural gas transported from the Southwest by Texas Eastern pipelines is a valued tool at The Gorham Company in Providence, Rhode Island — silversmiths since 1831. Here skilled artisans deftly manipulate precious metals into eternally beautiful flat ware and hollow ware. Gorham finds natural gas the ideal fuel because its temperature is readily controlled ... its atmosphere can be exactly regulated ... and most important, gas burns cleanly, protecting precious silverwork from harsh burnishing that would be necessary if other fuels were used. Today thousands of homes and industries depend upon natural gas ... the modern fuel which Texas Eastern makes abundantly available.

Texas Eastern aids the ancient art of the silversmith

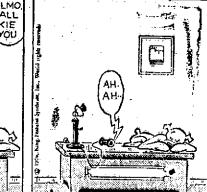

The natural gas used by The Gorham Company is supplied by Providence Gas Company through Algonquin Gas Transmission Company, a customer of Terra Eastern. Every type of fine silver, including flat ware and hollow ware, is manufactured by The Gorham Company.

Natural gas transported from the Southwest by Texas Eastern pipelines is a valued tool at The Gorham Company in Providence, Rhode Island — silversmiths since 1831. Here skilled artisans deftly manipulate precious metals into eternally beautiful flat ware and hollow ware. Gorham finds natural gas the ideal fuel because its temperature is readily controlled ... its atmosphere can be exactly regulated ... and most important, gas burns cleanly, protecting precious silverwork from harsh burnishing that would be necessary if other fuels were used. Today thousands of homes and industries depend upon natural gas ... the modern fuel which Texas Eastern makes abundantly available.

> TEXAS EASTERN Transmission Corporation SHREVEPORT LOUISIANA natural gas PIPELINES oil products

Notural Gas serves you in more ways in the home and in industry than any other fuel.

Natural gas transported from the Southwest by Texas Eastern pipelines is a valued tool at The Gorham Company in Providence, Rhode Island — silversmiths since 1831. Here skilled artisans deftly manipulate precious metals into eternally beautiful flat ware and hollow ware. Gorham finds natural gas the ideal fuel because its temperature is readily controlled ... its atmosphere can be exactly regulated ... and most important, gas burns cleanly, protecting precious silverwork from harsh burnishing that would be necessary if other fuels were used. Today thousands of homes and industries depend upon natural gas ... the modern fuel which Texas Eastern makes abundantly available.

returns to his com-cown low the creek as long as the brush ome after being in prison, that lined it might serve him. But Strunk, the gambler who helped he ran into more riders before he Commit him to the penitentlary, could reach it and was forced to veer north again. This bunch spe eeks him out and tells him to eave town. Jim rides toward ted him and guns started bang ing. Jim out the mare into a ru and pulled away from them

re pushing on. He did not like!He'd increased his load but any part of this business. The un-certainly hadn't shaken them. dercurrent of disquiet which Joe Back in the saddle he turne Bob's intercession had brought the mare east and later struck into Final's thinking kept harrowing him yith all maner of dire forebodings. Ever since he'd been in office Joe Bob had been using men and forgetting them; why was he belatedly and in such a suspiciously roundahout manner.

The mare east and later struck north once more.

With a sense of shock he saw the six still shapes which had materialized out of the wind-blown shadows. He let the mare stop.

"Where you go?" was ne belatedly and in such a suspiciously roundabout manner coming into this thing on the side of Bentain?

As governor, Joe Bob would was ne let the mare stop. "Where you go?"

A man dealing with Apaches could not afford to show anything but the calm of authority. There want to keep the tribes pacified if only to enhance his chances of staying in office, but Jim wasn't satisfied with this explanation. In The silence held for severa

satisfied with this explanation, In some obscure way it didn't gee with the governor's instructions.

Jim pushed on The wind was up again, He was following the creek west, constantly probing the ever-changing pattern of shadows, when he suddenly pulled up considering a new thought. Strunk had wanted him out of town, Strunk's marshal had ordered Strunk's marshal had ordered "White Father—" Jim out of it, and he'd gone, nev- White Father make heap If your of it, and he'd gone, never thinking to ask himself why. He had the sixshooter the stableman had lent him but, considering what was shaping up in his mind, he'd have felt a lot more adequate toting a rifle with a little more carrying power. Unless he missed his guess he had been shooed out of town to make sure there were no witnesses. Strunk had known be was coming, had

there were no witnesses. Strunk had known he was coming, had had time to shape his plans, The gambler would have known Bentain was mixed into Jim's getting out of that prison. They had run Final out of Bandoleer to be killed, to provide perhaps some kind of an incident which would point chain reaction at Taunee's Apaches.

Kramer had said they were stirred up. How could Strunk put them on the warpath quicker than by provoking the authorities to some further into a tangle of mesquite and pulled up.

Final pointed the mare north, deciding to avoid the route he'd chosen. Some two or three miles later he heard the muffled beat of hoofs before the unseen rides rould discover him. He put her into a tangle of mesquite and pulled up.

Hands sprang from everywhere. Peering out of its shadows he in a matter of moments they had him flat on the ground.
